By a yea-and-nay vote of 117 yeas to 272 nays with 1 voting "present", rejected a motion to recommit the bill to the Committee on Interstate and Foreign Commerce with instructions to report it back forthwith containing sundry amendments previously rejected in the Committee of the Whole.

Agreed to the committee amendment in the nature of a substitute as amended by:

An amendment that freezes present auto emission standards through 1979, reduces the levels during 1980-81 to the current California standards, and requires the full 90 percent reduction for carbon monoxide and hydrocarbons beginning in 1982, with nitrogen oxide standards to be established by EPA (agreed to by a recorded vote of 224 ayes to 169 noes with 1 voting "present").

Rejected an amendment in the nature of a substitute to the previous amendment that sought to require the full 90 percent reduction of the three major pollutants in 1981 and require, in the interim, the nationwide implementation of the 1976 and 1977 California standards (rejected by a recorded vote of 75 ayes to 313 noes).

**Agreed To:**

An amendment that requires the Administrator of EPA to establish acceptable carbon monoxide levels for the interior of school buses and other sustained use vehicles and requires DOT to insure compliance. Previ-

ously, a point of order was overruled against this amendment;

An amendment that limits EPA's authority to use the Clean Air Act to deny sewage treatment grants made under the Water Pollution Control Act;

An amendment that delays for 2 years the implementation of Stage II vapor recovery regulations for independent gasoline marketers until the FTC can make an economic analysis of their impact;

An amendment that allows dealers in high altitude areas to adjust emission controls for some emissions to provide for more effective emission controls;

An amendment that requires the Task Force on Environmental Cancer and Heart and Lung Disease to include in its research program the consideration of the impact of personal health habits, including tobacco smoking. Previously, a point of order was overruled against this amendment;

An amendment as amended by an amendment in the nature of a substitute (substitute agreed to by a recorded vote of 231 ayes to 156 noes) that allows EPA to represent itself in civil actions in courts of original jurisdiction, but reserves Justice Department control of appellate litigation;

An amendment that permits Congress to disapprove in whole or in part any rule or regulation change made pursuant to the Clean Air Act; and

An amendment that improves accounting by the EPA of actions taken to protect the public health and safety during periods of high pollution to enable the oversight committees of Congress to examine how efficiently EPA exercises its authority.

Rejected:

A motion to strike the enacting clause;

An amendment that sought to strike language requiring annual inspections to test the efficiency of pollution control devices of light-duty vehicles in 29 air quality control regions; and

An amendment that sought to require new regulations to limit the pollutants emitted by supersonic aircraft.

An amendment was offered but subsequently withdrawn that sought to prohibit the use of tolls on bridges located entirely within New York City as part of an applicable implementation plan.

Objection was heard to a request to consider a similar Senate bill, S. 3219, and pass said bill in lieu of H.R. 10498, after being amended to contain the language of the House bill as passed.

An amendment that excludes from the definition of a lobby organization any Federal, State, or local unit of government;

An amendment that strikes the exemption provided for communications and solicitations by an organization to its membership unless through a regular publication unrelated to lobbying;

An amendment that exempts communications by an organization to Members of Congress representing the organization's principal place of business if the communication is in response to certain solicitations and communications distributed or broadcast to the general public on subjects directly affecting the organization;

A technical amendment;

An amendment that exempts from reporting requirements the making of loans to federal officers and employees at terms which are no more favorable than those available to the general public;

A motion that the Committee rise (rejected by a recorded vote of 129 ayes to 207 noes);

An amendment that would have included within the reporting requirements the names of Federal officials or employees contacted by lobbying organizations.

Earlier, rejected an amendment in the nature of a substitute to the committee amendment that sought to use the number of contacts within a reporting period, rather than a percentage of time, as a threshold for defining a lobbyist organization (rejected by a recorded vote of 74 ayes to 291 noes).

Agreed to the following amendments to the amendment in the nature of a substitute:

An amendment which strikes from the reporting requirements a description of exactly 25 issues of concern to an organization;

An amendment that exempts from the reporting requirements the making of loans to Federal officers and employees at terms which are no more favorable than those available to the general public;

An amendment that adds language clarifying the definition of solicitation as not including oral or written communications by one registered organization to another registered organization; and

An amendment that sought to require lobbyists to wear identification name tags if their lobbying activities are within 50 feet of any entrance to either Chamber of the Congress while such Body is in session (rejected by a recorded vote of 84 ayes to 271 noes);

An amendment that sought to exempt the influencing of the award of a government contract as an activity which constitutes lobbying under the bill (rejected by a recorded vote of 89 ayes to 268 noes);

An amendment that sought to include within the registration requirements the identifying of anyone who has contributed or expects to contribute \$2,500 to an organization and who spends or will spend 20 percent or more of his time in any filing quarter engaged in activities for the organization (rejected by a recorded vote of 159 ayes to 195 noes);

Rejected a motion to strike out the enacting clause (rejected by a division vote of 52 ayes to 120 noes).

Objection was heard to a request to consider a similar Senate bill, S. 2477, and pass said bill in lieu of H.R. 15, after being amended to contain the language of the House bill as passed.
